

HOW ANIMATION HAS EVOLVED OVER TIME

HAND-DRAWN ANIMATION (1900S-1980S)

- Artists drew every single frame by hand.
- Used in early classics like Snow White and The Jungle Book.

2D DIGITAL ANIMATION (1990S)

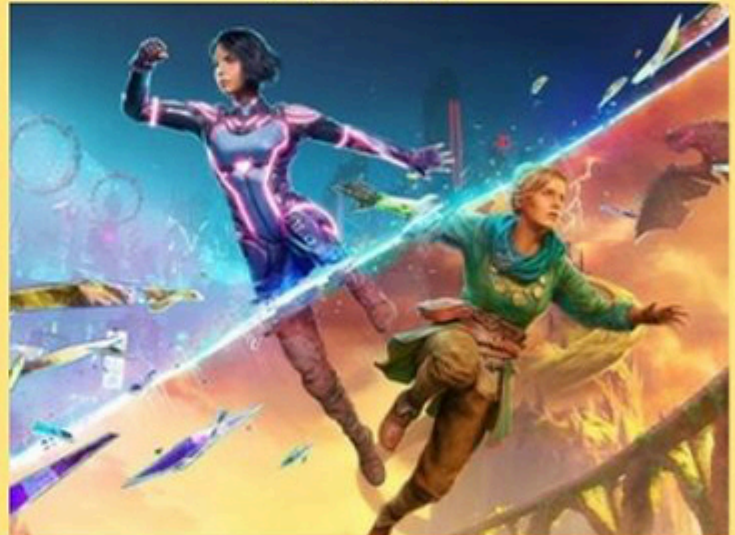

- Animation moved to computers with digital tools.
- Faster production with software like Flash & Toon Boom.

3D ANIMATION (2000S)

- Characters and environments are created in 3D space.
- Used in blockbusters like Toy Story, Frozen, and Kung Fu Panda.

ANIMATIONS AT PRESENT

- Animation is now widely used in games, TV, OTT, and movies.
- Strong demand for skilled animators in many industries.
